

Serial No. 10/506,972 Docket No. KAGEI-0103-US
Reply to Office Action dated 11/23/2005

Remarks/Arguments

The outstanding Quayle Action indicated that the present application is in condition for allowance except for some formal matters. This response and amendment addresses those details

Claims 1-12 are pending in the application. Claim 1 has been amended by way of the present amendment. The abstract was objected to for informalities. A rewritten Abstract has therefore been attached hereto. Claims 1-12 were objected to because it was unclear to the Examiner whether the applicant is claiming the sub-combination of the seal or the combination of the swing structure and seal. Applicant desires to claim the combination of the seal and swing structure and has amended Claim 1 to reflect this. Accordingly, reconsideration of this application, as amended, is respectfully requested.

Amendments to the Specification

In response to the Examiner's objections to the abstract, applicant's attorney has attached hereto a replacement abstract using the proper language and format. In light of their formal nature, the changes to the specification are not believed to raise a question of new matter.

Claim Objections

Claims 1-12 were objected to because it was unclear to the Examiner whether the applicant is claiming the sub-combination of the seal or the combination of the swing structure and seal. Applicant desires to claim the combination of the seal and swing structure and has amended Claim 1 to reflect this. Thus it is believed that the claim informalities addressed in the Quayle Action has been addressed and the claims are in proper condition for allowance.
